ELEMENTOS PARA PARQUES CANINOS PANAMA

MOBILIARIO URBANO PANAMA

MOBILIARIO URBANO PANAMA

parques
caninos

MOBILIARIO URBANO PANAMA

Doggie See Saw (Sube y Baja Canino) **\$875**

Medidas 175x72x45

Obstáculo de equilibrio y agilidad para perros de tamaño mediano y grande. Desarrolla coordinación y confianza en superficies inestables — uno de los elementos más solicitados en circuitos de agilidad canina.

Doggie Tunnel

\$1895

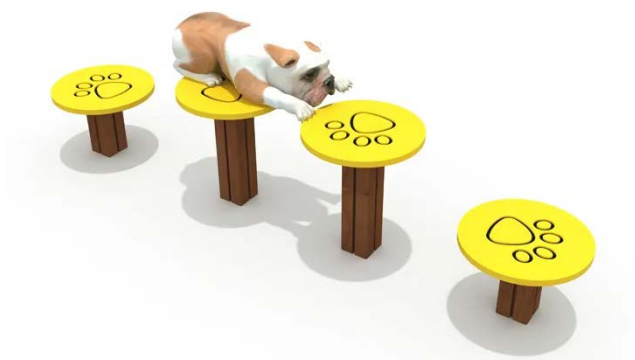

Medidas 210x130x155

Estructura de túnel con acceso frontal, diseñada para estimular la exploración y el juego. Su volumen la convierte en un punto focal visual dentro del parque canino, además de elemento funcional de agilidad.

MOBILIARIO URBANO PANAMA

parques
caninos

Doggie Steps 4 Steps (Escalera de Pasos Caninos)

\$580

Medidas: 215 × 40 × 45 cm
Secuencia de cuatro plataformas elevadas que trabajan equilibrio, salto controlado y coordinación. Recomendado como elemento de dificultad progresiva dentro de un circuito de agilidad.

King of the Hill con Área de Descanso

\$1680

Medidas: 280 × 150 × 160 cm
Rampa de ascenso con plataforma superior y zona de descanso integrada. Funciona como elemento central de un parque canino, ofreciendo tanto actividad física como un punto de observación elevado para la mascota.

MOBILIARIO URBANO

King of the Hill sin Área de Descanso

Medidas: 370 x 120 x 90 cm

Versión de rampa de mayor longitud sin plataforma de descanso, orientada a un uso más continuo de ascenso y descenso — adecuada para parques caninos con mayor disponibilidad de espacio horizontal.

\$1420

Dogipot Station (Estación Dispensadora de Bolsas)

Medidas: 198 x 30 cm

Estación de manejo de residuos con dispensador de bolsas y receptáculo integrado. Es el componente de higiene y mantenimiento indispensable en cualquier parque canino — sin este elemento, el área canina no cumple estándares operativos mínimos para un desarrollo residencial o comercial.

\$525

parques caninos

2 Ring Jumper (Doble Aro de Salto)

Medidas: 80 x 80 cm

Par de aros de salto para ejercicios de agilidad y obediencia. Elemento compacto, ideal para parques caninos con espacio limitado o como complemento un circuito más grande.

\$296

TECHNICAL SPECS

Our dog park equipment is designed with the same robust and durable materials as our playground equipment, ensuring longevity and safety. The main structure is constructed with steel, providing a sturdy foundation for the various elements of the dog park.

Specifications:

- **Main Post:** The primary post has a diameter of 114mm and features a thickness of 2mm, ensuring stability and resilience against various environmental conditions.
- **HDPE Parts:** The equipment incorporates High-Density Polyethylene (HDPE) parts available in two types:
 - **19mm Thickness:** This type is available in two different colors, allowing for customization according to aesthetic preferences.
 - **15mm Thickness:** This variant is available in one color, offering a sleek and uniform appearance.

Features:

- **Durability:** The steel and HDPE construction ensures a long-lasting installation resilient to wear and tear.
- **Customization:** The availability of different colors in HDPE parts allows for aesthetic adaptability to different environments.
- **Safety:** The robust construction provides a safe environment for dogs to play, reducing the risk of equipment failure.

Application:

This equipment is suitable for dog parks looking to offer a safe and durable play environment for dogs, combining functionality with aesthetic appeal. The steel and HDPE construction ensures that the equipment can withstand the energetic play of dogs while maintaining its appearance and structural integrity.

INFORMACION TECNICA

MUPA – Mobiliario Urbano Panamá diseña, suministra e instala equipos para parques caninos en desarrollos residenciales, condominios, municipios y espacios comerciales en Panamá. Nuestro mobiliario canino utiliza estructura de acero galvanizado y paneles de polietileno de alta densidad (HDPE) estabilizados contra radiación UV — los mismos estándares de material que usamos en parques infantiles, adaptados a las condiciones del clima tropical panameño. Este catálogo incluye elementos de agilidad, descanso y manejo de residuos para equipar un parque canino completo, desde una torre residencial hasta un desarrollo de uso mixto.

Especificaciones:

- **Poste Principal:** El poste principal tiene un diámetro de 114mm y cuenta con un grosor de 2mm, asegurando estabilidad y resistencia contra diversas condiciones ambientales.
 - **Partes de HDPE:** El equipamiento incorpora partes de Polietileno de Alta Densidad (HDPE) disponibles en dos tipos:
 - **19mm de Grosor:** Este tipo está disponible en dos colores diferentes, permitiendo personalización según preferencias estéticas.
 - **15mm de Grosor:** Esta variante está disponible en un solo color, ofreciendo una apariencia elegante y uniforme.

Características:

- **Durabilidad:** La construcción de acero y HDPE asegura una instalación duradera resistente al desgaste.
- **Personalización:** La disponibilidad de diferentes colores en las partes de HDPE permite adaptabilidad estética a diferentes entornos.
- **Seguridad:** La construcción robusta proporciona un ambiente seguro para que los perros jueguen, reduciendo el riesgo de fallo del equipamiento.

Parques Caninos en Panamá: Equipos y Mobiliario Especializado | MUPA

MUPA – Mobiliario Urbano Panamá diseña, suministra e instala equipos para **parques caninos** en desarrollos residenciales, condominios, municipios y espacios comerciales en Panamá. Nuestro mobiliario canino utiliza estructura de acero galvanizado y paneles de polietileno de alta densidad (HDPE) estabilizados contra radiación UV – los mismos estándares de material que usamos en parques infantiles, adaptados a las condiciones del clima tropical panameño.

Este catálogo incluye elementos de agilidad, descanso y manejo de residuos para equipar un parque canino completo, desde una torre residencial hasta un desarrollo de uso mixto. Un ejemplo instalado: el parque canino integrado al proyecto **Brisas Capital**, en Brisas del Golf, Panamá Norte, donde MUPA coordinó el área canina junto con mobiliario urbano de concreto y un parque infantil KOMPAN. <https://www.mobiliariopanama.com/caso-exito-parque-canino-mobiliario-urbano-brisas-capital-panama>

¿Qué es un parque canino y por qué incluirlo en un proyecto residencial?

Un parque canino es un área exterior equipada con obstáculos de agilidad, elementos de descanso y estaciones de manejo de residuos, diseñada para que las mascotas hagan ejercicio de forma segura y supervisada. En Panamá, cada vez más desarrolladores residenciales, PH y municipios incluyen esta infraestructura como amenidad diferenciadora, junto con áreas infantiles y mobiliario urbano general.

Un parque canino bien diseñado necesita tres componentes:

1. **Equipos de agilidad y juego** – obstáculos, túneles, rampas
2. **Mobiliario de descanso** – bancas y sombra para los propietarios que supervisan
3. **Manejo de residuos** – estaciones dispensadoras de bolsas y receptáculos

Especificaciones técnicas del equipamiento

Nuestro equipamiento para parques caninos está construido con los mismos materiales robustos y duraderos que nuestro equipamiento para parques infantiles, asegurando longevidad y seguridad en exteriores.

Componente	Especificación
Poste principal	Acero, diámetro 114 mm, grosor 2 mm
Paneles HDPE (tipo 1)	19 mm de grosor, disponible en dos colores
Paneles HDPE (tipo 2)	15 mm de grosor, un color, acabado uniforme
Resistencia UV	Paneles estabilizados contra radiación solar
Resistencia a humedad	Acero y HDPE aptos para clima tropical

¿Por qué acero y HDPE en lugar de madera? En el clima húmedo de Panamá, la madera se degrada por hongos, insectos y ciclos de humedad-secado. El acero galvanizado y el HDPE de alta densidad no absorben agua, no requieren pintura periódica y mantienen su integridad estructural bajo exposición solar y lluvia constante – reduciendo el mantenimiento recurrente frente a soluciones de madera.

Doggie See Saw (Sube y Baja Canino)

Medidas: 175 × 72 × 45 cm Obstáculo de equilibrio y agilidad para perros de tamaño mediano y grande. Desarrolla coordinación y confianza en superficies inestables – uno de los elementos más solicitados en circuitos de agilidad canina.

Doggie Tunnel (Túnel Canino)

Medidas: 210 × 130 × 155 cm Estructura de túnel con acceso frontal, diseñada para estimular la exploración y el juego. Su volumen la convierte en un punto focal visual dentro del parque canino, además de elemento funcional de agilidad.

Doggie Steps 4 Steps (Escalera de Pasos Caninos)

Medidas: 215 × 40 × 45 cm Secuencia de cuatro plataformas elevadas que trabajan equilibrio, salto controlado y coordinación. Recomendado como elemento de dificultad progresiva dentro de un circuito de agilidad.

King of the Hill con Área de Descanso

Medidas: 280 × 150 × 160 cm Rampa de ascenso con plataforma superior y zona de descanso integrada. Funciona como elemento central de un parque canino, ofreciendo tanto actividad física como un punto de observación elevado para la mascota.

King of the Hill sin Área de Descanso

Medidas: 370 × 120 × 90 cm Versión de rampa de mayor longitud sin plataforma de descanso, orientada a un uso más continuo de ascenso y descenso – adecuada para parques caninos con mayor disponibilidad de espacio horizontal.

Dogipot Station (Estación Dispensadora de Bolsas)

Medidas: 198 × 30 cm Estación de manejo de residuos con dispensador de bolsas y receptáculo integrado. Es el componente de higiene y mantenimiento indispensable en cualquier parque canino – sin este elemento, el área canina no cumple estándares operativos mínimos para un desarrollo residencial o comercial.

2 Ring Jumper (Doble Aro de Salto)

Medidas: 80 × 80 cm Par de aros de salto para ejercicios de agilidad y obediencia. Elemento compacto, ideal para parques caninos con espacio limitado o como complemento a un circuito más grande.

Referencia de proyecto instalado: Brisas Capital

En el desarrollo Brisas Capital (Brisas del Golf, Panamá Norte), MUPA integró el área canina dentro del lenguaje general del proyecto, usando mobiliario de concreto (bancas y papeleras) en las zonas de supervisión y descanso alrededor del parque canino, coordinado con el parque infantil KOMPAN instalado por Playtime Panamá. Este es un ejemplo real de cómo el equipamiento canino se integra –no se aísla– dentro del diseño exterior de un proyecto residencial. <https://www.mobiliariopanama.com/caso-exito-parque-canino-mobiliario-urbano-brisas-capital-panama>

Preguntas frecuentes

¿Qué equipos incluye un parque canino completo? Un parque canino funcional combina obstáculos de agilidad (sube y baja, túnel, escalera de pasos, rampas), mobiliario de descanso para los propietarios (bancas) y una estación de manejo de residuos con dispensador de bolsas.

¿Qué material se usa en el mobiliario de parques caninos en Panamá? Estructura de acero galvanizado con paneles de HDPE (polietileno de alta densidad) estabilizados contra UV. Este material resiste la humedad tropical y la exposición solar constante sin necesidad de mantenimiento pintado recurrente, a diferencia de estructuras de madera.

¿MUPA instala parques caninos en desarrollos residenciales? Sí. MUPA suministra e instala equipamiento para parques caninos en condominios, PH, municipios y desarrollos comerciales en Panamá, incluyendo un proyecto de referencia instalado en Brisas Capital, Brisas del Golf.

¿Es necesaria una estación de manejo de residuos en un parque canino? Sí. Una estación dispensadora de bolsas (Dogipot Station) es el componente mínimo de higiene operativa esperado en cualquier parque canino de un desarrollo residencial o comercial.

¿El equipamiento canino requiere el mismo mantenimiento que un parque infantil? El acero galvanizado y el HDPE utilizados son los mismos estándares de material que en equipamiento de parques infantiles, lo que significa bajo mantenimiento recurrente y resistencia comprobada al clima tropical panameño.

¿Está planificando un parque canino para su desarrollo residencial, PH o proyecto comercial en Panamá?

MUPA puede ayudarle desde la selección de equipos hasta la instalación completa.

DOG PARK EQUIPMENT

Make your dog park a community destination | www.dogparkproduct.com

WHY BARKPARK®?

Our agility products and courses are based on popular agility obstacles and have been developed for use by dogs of all abilities and confidence levels.

Most of all, BarkPark builds attractive and fun places for pets and their families to exercise, socialize, and enjoy nature!

-  Promotes healthy behavior in dogs and dog owners
-  Offers exclusive CanineCoat™ thermoplastic coating
-  Available in 11 pre-configured agility courses
-  Made in the USA
-  Durable enough for even the toughest canines
-  Offers coordinating site amenities and accessories to complete the space

OUR STORY

We LOVE dogs – not just our dogs, but every dog! That’s why we designed dog park equipment to bring communities together all over the world.

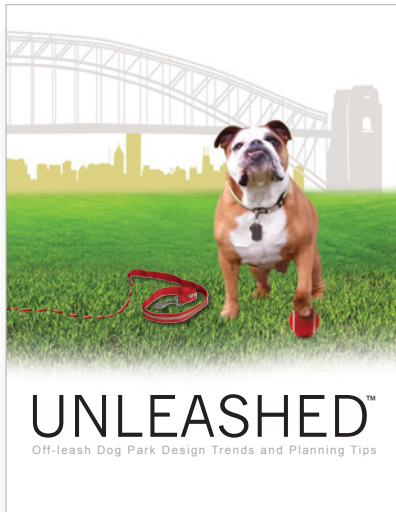

Working in the recreation market made us realize that people don’t just take their little ones to the park... but they bring their fur babies too! Dogs are awesome and they play such a vital role in the family unit, so why shouldn’t they have their own dedicated park?!

And so, BarkPark was born. We have taken the time to study not just dog behavior in the park but the community it builds when introduced. Each of our products are researched, tested, and designed with our #1 customer in mind – your dog!

“The journey of life is sweeter when traveled with a dog.”

– Bridget Willoughby

DOG PARK ADVOCACY GUIDE

Unleashed: Off-leash Dog Park Design Trends and Planning Tips

The Unleashed guidebook helps communities effectively advocate for the many benefits of off-leash dog parks. Dog parks provide enjoyable ways to recreate and exercise for both dog owners and their dogs. They also create community destinations. Research shows there are many positive effects for individuals that own a dog(s); as well as health and social benefits of owning a dog, caring for it, and recreating outdoors with pets. In addition, design considerations and case study examples are outlined to effectively design a dog park and champion initiatives that provide meaningful outcomes supporting overall health and social benefits for the community.

To learn more and request your copy visit:
www.playcore.com/unleashed-request

“Bark parks keep individuals fit and active, increase their enjoyment of the outdoors, and help to increase connectivity among people living in the area.”

Pets are good for your health!

Love, companionship, and sloppy kisses are just a few of the reasons people own pets. In fact, pets have proven to be good for your health in many ways.

STRESS REDUCTION

Pet owners have less stress and recover more quickly from it.

HEART HEALTH

Studies show that people with pets have healthier heart rates and blood pressure.

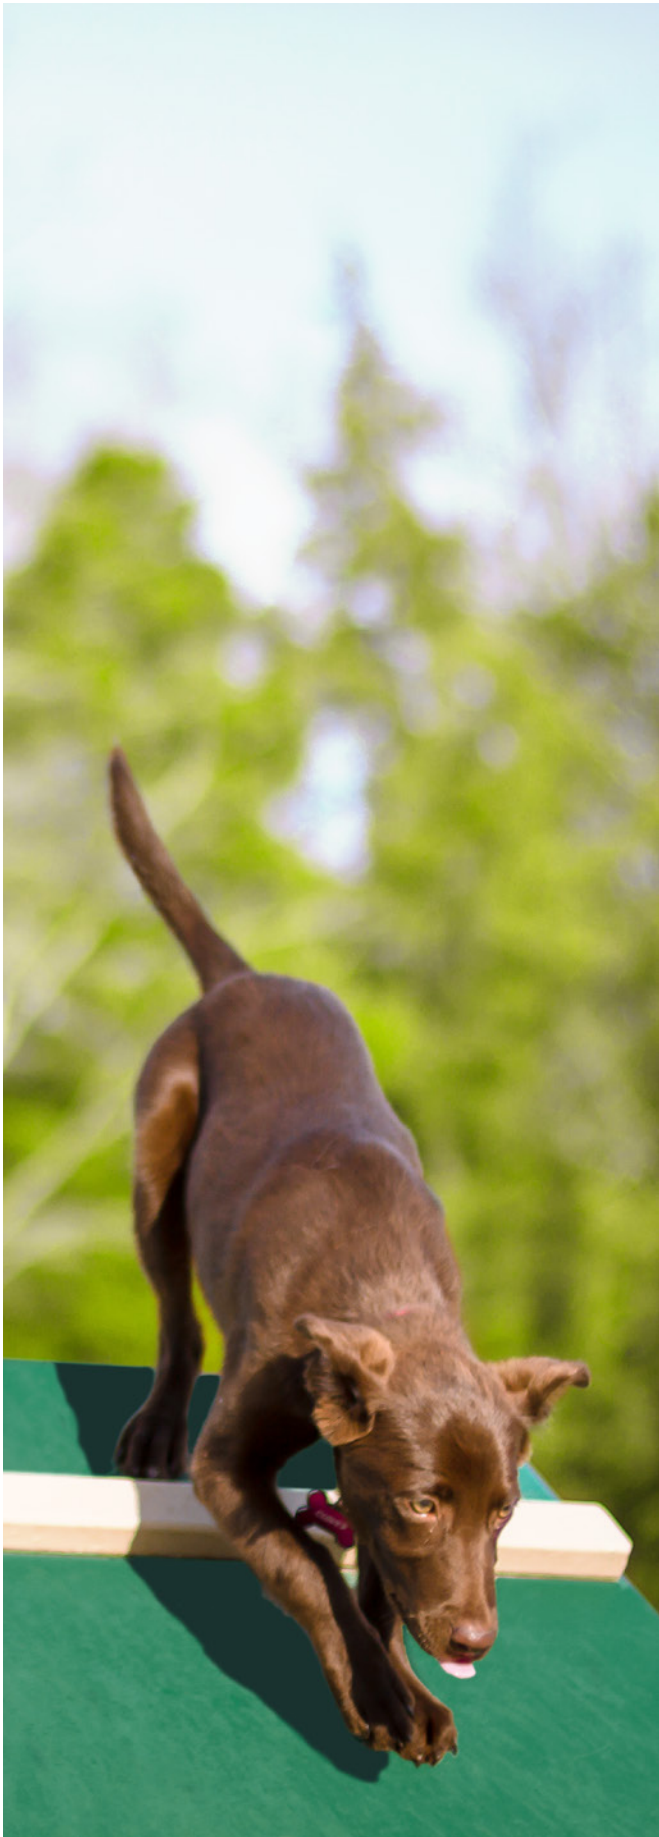

WEIGHT MANAGEMENT

Dog owners are less likely to be obese, due to being more physically active when walking their pets.

CHOLESTEROL LEVEL

Studies show that owning a pet can decrease cholesterol, triglycerides, and blood pressure.

APPROPRIATE SETTINGS FOR A BARKPARK

- Public Parks
- Multi-Family Housing
- Municipalities
- Rest Areas
- Hotels
- RV Parks
- Airports
- Doggie Daycares
- Anywhere furry friends are welcome

COLOR OPTIONS

In addition to offering many different course configurations, BarkPark is available in two (2) color options to appeal to your design aesthetic.

- Playful (Red and Blue)
- Natural (Brown and Green)

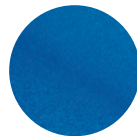

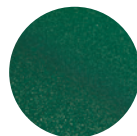

MADE IN THE USA

BarkPark equipment is proudly designed and manufactured in our UltraSite manufacturing facility in Red Bud, IL.

The comfort and safety of your dog is important to us which is why we developed our exclusive CanineCoat™ thermoplastic coating. Our steel walking surfaces that come in contact with your dog's paws feature BarkPark's proprietary CanineCoat.™

- Slip-Resistant
- Durable, Resistant to Vandalism
- All-weather, UV Protection
- Urine Resistant

TRADITIONAL COURSES

HOOP JUMP

TBARK-430

The Hoop Jump is a progressive jump trainer for dogs of all abilities which features three rings of increasing heights. Mounts inground or surface mounts with anchor bolts. Thermoplastic coated.

46.75" L x 1" W x 53" H | 32 lbs.

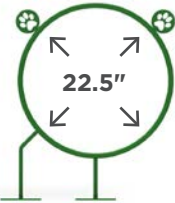

SMALL HOOP JUMP

TBARK-431

Our Small Hoop Jump is designed specifically for little legs! The hoops are staggered in three different heights. Mounts inground or surface mounts with anchor bolts. Thermoplastic coated.

50" L x 1" W x 25.5" H | 15 lbs.

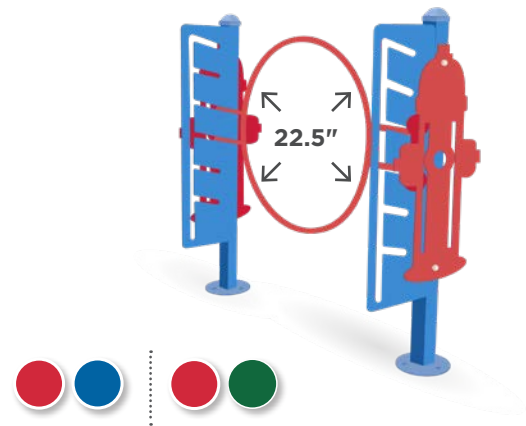

MINI HOOP JUMP

TBARK-437

The Mini Hoop Jump is the perfect solution when space and budgets are tight. This compact version of our hoop jump trainer, features the same 22.5" opening to accommodate dogs of all sizes. Mounts inground or surface mounts with anchor bolts. Thermoplastic coated.

23.75" L x 1" W x 30" H | 13 lbs.

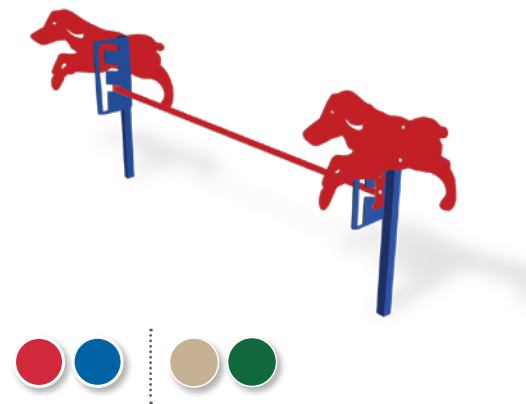

ADJUSTABLE HOOP JUMP

TBARK-432

The Adjustable Hoop Jump provides a progressive jump trainer from beginner to expert offering 5 different height levels. Features a friendly fire hydrant on the side to enhance your dog park area, mounts inground or surface mounts with anchor bolts.

40.6" L x 15" W x 39" H | 70 lbs.

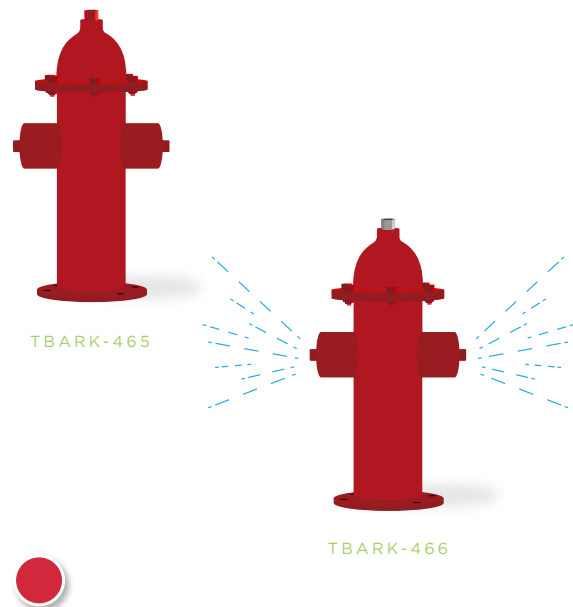

ROVER JUMP OVER

PBARK-450

The Rover Jump Over is an adjustable jump bar challenge that allows for quick and easy height changes—higher for experienced jumpers and lower for beginners and small dogs. The height can adjust simply by moving the bar to higher or lower notches in the frame. Mounts inground or surface mounts with anchor bolts.

78" L x 42.5" W x 34.5" H | 75 lbs.

FIRE HYDRANT & MISTING FIRE HYDRANT

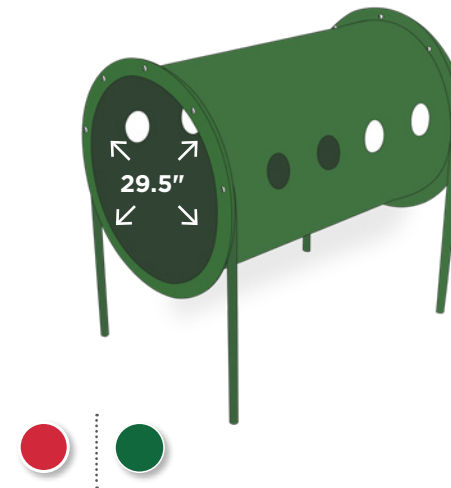

The most popular spot in the park! The Fire Hydrant is resistant to urine and creates a fun social hang-out! Choose between the standard Fire Hydrant, or to keep your canine cool, choose our Misting Fire Hydrant. The Misting Fire Hydrant sprays for 10 seconds when the top button is pushed. Surface Mounted. Thermoplastic Coated.

FIRE HYDRANT TBARK-465

13.3" W x 25" H | 40 lbs.

MISTING FIRE HYDRANT TBARK-466

13.5" W x 25" H | 45 lbs.

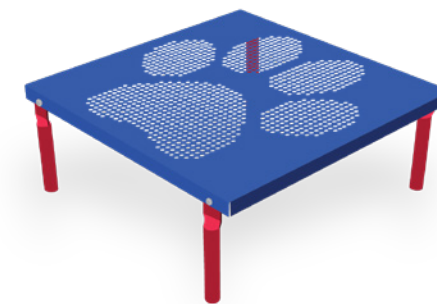

DOGGIE CRAWL

PBARK-491

The Doggie Crawl is a classic crawl tunnel that features many spyholes for increased interior brightness and superior supervision. The large diameter tunnel allows entry by most dogs and is made of heavy-duty rotomolded plastic. It can be surface mounted with ground spikes (included) or mounted inground.

44" L x 40" W x 45" H | 90 lbs.

PAWS GROOMING TABLE

PBARK-420

The Paws Table provides a place for dogs to take a break from running the BarkPark™ course or to practice sit and stay commands. Basic grooming can also be accomplished while the dog takes a pause. Mounts inground or surface mounts with anchor bolts. Canine Coated.

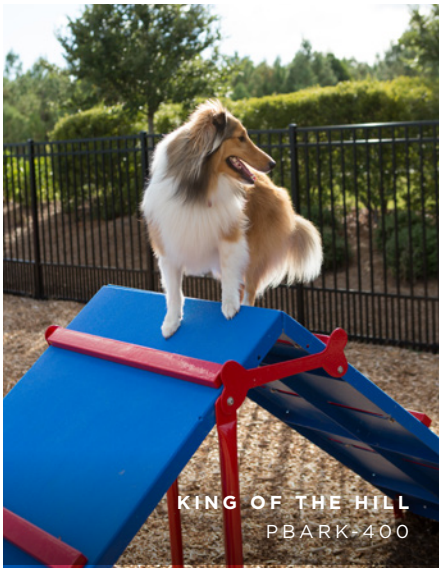

36" L x 36" W x 12" H | 56 lbs.

ROVER JUMP OVER PBARK-450

STEPPING PAWS PBARK-470

KING OF THE HILL
PBARK-400

DOG WALK PBARK-410

DOG WALK

PBARK-410

The Dog Walk is the largest BarkPark™ component and is made up of three non-slip planks supported by mounted posts. Dogs can walk or run up, across, and down the planks based on their individual level of balance and confidence. Mounts inground or surface mounts with anchor bolts. Canine Coated.

230.25" L x 30" W x 32" H | 360 lbs.

STEPPING PAWS

The Stepping Paws require the dog to either step or jump from each platform. The pods increase and decrease in height to develop balance and confidence. The pods can be arranged to provide a true test of agility or to create a fun obstacle for dogs to play. Mounts inground or surface mounts with anchor bolts. Canine Coated.

PBARK-471 (SET OF 3)

14.5" OD | 45 lbs

PBARK-470 (SET OF 5)

14.5" OD | 75 lbs

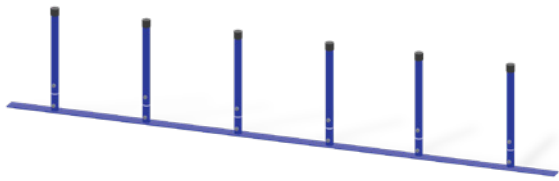

KING OF THE HILL

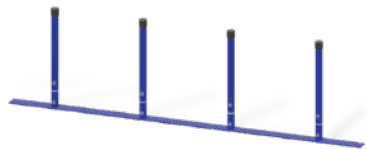

PBARK-400

Let them be King! The King of the Hill provides a challenge for all dogs to walk or run up an incline and descend the other side at their own pace and confidence level. Endurance and balancing capacity are also developed. Mounts inground or surface mounts with anchor bolts. Canine Coated.

127.5" L x 30" W x 48.25" H | 240 lbs.

PBARK-460

PBARK-462

WEAVE POSTS

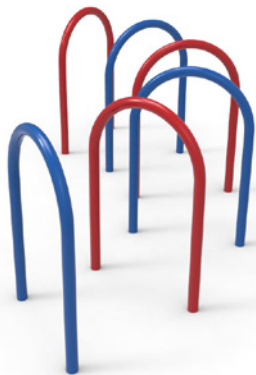

Weave Posts offer a fun and simple obstacle for dogs of all sizes. Choose between our Trooper series, made of heavy duty powder coated aluminum, and includes a total of 6 posts, or our Rookie series, made from powder coated PVC and includes 4 posts. Both series include surface plates, allowing for easy alignment, and flexible steel spring attachments, which provide added safety and smooth pacing, even at top speed! The Trooper can be inground or surface mounted. The Rookie is only available as inground mount.

TROOPER PBARK-460

132" L x 3" W x 24.5" H | 84 lbs.

ROOKIE PBARK-462

88" L x 3" W x 24.5" H | 18 lbs.

DOGGIE DASH

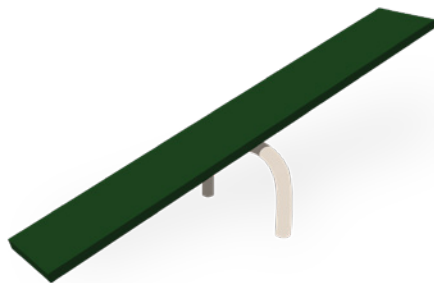

The Doggie Dash is a fun, modular tunnel, with endless combinations! Sold in sets of 6 or individually to meet your specific needs. Mounts inground or surface mounts with anchor bolts. Powder Coated.

PBARK-439 (SET OF 1)

25" L x 5" W x 36" H | 3 lbs.

PBARK-438 (SET OF 6)

25" L x 5" W x 36" H | 18 lbs.

TEETER TOTTER

PBARK-440

The Teeter Totter offers the challenge of an obstacle that the dog must "control." Once mastered, the Teeter Totter can be a real confidence booster for dogs in terms of balance. Mounts inground or surface mounts with anchor bolts. Canine Coated.

120" L x 15" W x 31.25" H | 100 lbs.

OTHER AMENITIES

PUP TURF

Don't forget surfacing! Pup Turf is a leading artificial turf provider for dog parks nationwide.

-  Natural outdoor look
-  Perforated turf layer provides rapid drainage
-  Eliminates unsightly dead grass spots and mud pits
-  Odors easily flush away with water
-  Featuring SILVERBACK™ backing which provides unmatched strength, stability, and greatly reduces the risk of wrinkles, expansion, and shrinking

WEAR MATS

161292

Made from 85% recycled rubber, Wear Mats help to provide stability and longevity for surfaces when placed in high traffic areas. They can be placed on top of the surface and will reduce maintenance time and cost in areas where they are used. Shown here on both ends of the Teeter Totter.

48" L x 44" W x 1" Thick | 60 lbs

SHADES, SHELTERS & BIKE RACKS

Fabric shades, shelter structures, and bike racks are perfect additions to any dog park. Shade and shelter provide comfortable spaces for your patrons as they socialize or relax while watching the dogs play, while bike racks provide secure parking for cyclists. Find these and more furnishings to complete your space at www.ultra-site.com
